The Class of 1983 entered into King Philip Regional School in September 1979 to begin their four year voyage. Many of us not knowing what to expect, were rather nervous, but being the Class of '83 we knew we could make it together.

Our Freshman year started off with flying colors under the leadership of **Therese Doyle**-President, **Debbi Finley** -Vice President, **Terry Roche**-Secretary, and **Delight Newman**-Treasurer. They were guided successfully by **Mr. Weintraub** and **Mrs. Fagan**.

Working together we immediately began our fundraising events. Sponsoring candy sales, dances and a magazine sale we built up our treasury.

Showing our class spirit we proudly built our first Homecoming float at **Geromini's** house, "When the Hornets get Swatted Down, The Warriors Will Keep 'em on the Ground." We played the Mansfield Hornets. Though we did not capture a victory, we were proud of our first float.

The Freshman-Sophomore Semi- Formal "Longer Than" held at the King Philip Ballroom in Wrentham proved to be success. With music by **Labonza**, we all danced the night away. The Freshman were beautifully represented by **Dawna Hooper** and **Pam Candage** in the Queen's Court.

As Freshman we grew to know King Phillip and ourselves and we were ready to go on!

Beginning our Sophomore year with the same leaders and advisors, we kept our spirit growing and our ambitions grew.

With the use of **Tenley Hughes'** garage we set off once again to build our awesome float "KP Will Pocket the Rockets!" We were again defeated, but we still kept our pride.

We sponsored dances, candy sales, a jelly bean guessing game, a magazine sale, and a road race. Everyone worked together to make our fundraisers successful.

Our Freshman-Sophomore Semi-Formal "The Rose" held at the KP Ballroom again was certainly a wonderful evening. **Joshua Tree** performed and proudly representing our class as Queen was **Debbi Finley**. **Denise Petrosian** and **Sandy Allsworth** were in the court.

With only one year to go to be at the top, our Junior year certainly proved to show how awesome the Class of '83 really is!

Our Junior Class officers were **Therese Doyle**-President, **John Kinlin**-Vice President, **Vicki Werning**-Secretary, and **Delight Newman**-Treasurer. Once again **Mr. Weintraub** and **Mrs. Fagan** survived our outrageous ideas and schemes. What can we say, as Juniors we were "UNREAL!"

Playing Oliver Ames for Homecoming, we built our best float "Warrior's Voice will Soar, As They Silence O.A.'s Roar" in **Tenley Hughes'** garage. Although we did not win the trophy, we were definitely proud of our float.

Raising money was not hard at all. We worked together on dances, candy sales, carnation sales, and our

memorable Gong Show. As judges we had the famous **"Un-Known Keimach"**, **Mrs. Tower** and the Patriots All-Pro place kicker, **John Smith**.

Sticking together and showing our true spirit as Juniors, we captured the Class Competition trophy. This brought a feeling of unity to the class. We proudly accepted it.

Our Junior-Senior Prom "Wonderful Tonight" was an evening for all to cherish. Held at the Chateau DeVille in Randolph, we danced to music by **Mainstreet**.

**Karen Henderson** and **Vicki Werning** represented the Juniors in the Queen's Court. Our first Prom was enjoyable but we knew the best was yet to come!

As we sail on, the Class of 1983 finally entered King Philip as SENIORS!! KP's best yet!

Leading the class was **Therese Doyle**-President, **Patty Phelan**-Vice President, **Debbi Finley**-Secretary, and **Delight Newman**-Treasurer. **Mrs. Fagan** was our new head class advisor. We sure tried her patience, but she survived. **Mrs. Wernborg** assisted her as an advisor with this wild and crazy bunch of ????

**Tony Ormsby**, an exchange student from Australia, joined the Class of 1983.

Starting our Senior year immediately was Homecoming. Building aggressively at **Tenley Hughes'** we completed our Super Senior Float. We played the Mansfield Hornets and proudly displayed our float "Mansfield Hornets will lose their form as KP Warriors stomp their swarm!" Although we lost the float competition, we willingly accepted the Spirit Week

Competition trophy. As Seniors we proved we had school spirit!

The day was highlighted by Homecoming Queen **Therese Doyle** and her court **Denise Petrosian**, **Vicki Werning**, and **Delight Newman**.

Our class showed more unity as we all enjoyed ourselves at the Chinese Food Banquet. Without the hypnotist we would not be able to "salute" our fellow classmates.

On Thanksgiving Day, **Carol Schwalbe** represented the Senior class as Queen.

Trying to stay sane, we kept our treasury increasing. Candy sales, dances, carnation sales, and other major fund raisers contributed to our treasury.

We all enjoyed our successful Senior Supper and the Junior-Senior Prom, which was held at the Sheraton-Tara in Braintree, was definitely an evening to remember. We have so many good times to cherish and to be thankful for.

Now that we have our diplomas, remember to take each day for itself and reach for the best. You can achieve what you really want to if you put your mind and heart to it. Remember we are still young and the world is yet to be "ours." So let's do it right because this class, **the Class of 1983, You are the Best!**

June 5, 2000

Dear Mrs. Fagan,

You'd never guess what happened to me last weekend. I was asked to be a guest speaker at a medical convention in New York City. Well, I took up the offer. I was really surprised when I found out that the hotel where I would be staying was called "Tree's Suite". Immediately I thought of Therese Doyle and would you believe it, it was her hotel!

Therese and I had dinner and a few drinks to talk over old times. She's married to a New York State Senator and has 8 children. We also filled each other in on where the awesome Class of '83 is today.

Some of us really made it big. Mary Ellen Flower is a happy millionaire, Mike McGlynn is an unhappy millionaire, and Jean Williams has so much money that she was able to totally overhaul the white bomber. Erik Bezema, Ken Shaw, Jim O'Connell, and Maria Tedeschi are all loaded with money. Bruce Hamlin, Shawn Conroy and Joe Cameron are all successful-at what, I don't know. Jim Peavey is making \$20 an hour and Nancy Maduskuie is self-sufficient. Cheryl Bettinger was a millionaire sweepstakes winner and Becky Nye owns everything that she ever wanted. Joanne Conniff and Kathy French both own beautiful mansions. Mike Kelly's well to do and finally has the beautiful girl of his dreams.

Some of us had the right idea and got out of Massachusetts. Pam Young is in California, Karen Henderson is living it up in Texas and Phyllis Usher has a ranch in Kentucky. Linda Moran is in Colorado checking out the guys on the ski slopes. Nancy Sabin is in Hawaii. She was late for 5 of her flights but she finally made it. Sue Stenquist and Brenda Bredvik are living right here in New York in penthouses. Sherry Boyd and Barbara Black have a gorgeous mansion in Florida with handsome male servants all over the grounds. Roberta Ludwig has a beautiful mansion in the Carribean. Where's our high school football team's quarterback, Mike Kuza? He's presently sipping champagne while gazing out his penthouse in uptown Dallas. Amy Wright is living in the backwoods of Vermont with MCH.

While Therese and I were talking the announcer in the hotel lounge introduced the entertainment. I couldn't believe it. Mark Harmon was in the band. Some of the songs they sang were composed by none other than Donna Larkin. I also found out that Marion Parmenter is a singer and Kathy O'Connell is an excellent band director.

I later found out that some of my old classmates were here for the convention that I was to speak at. Tenley Hughes is a dental hygienist, Karen Calkins is an emergency room doctor at a city hospital, and Carol McClintock is a doctor, too. Deb Smith is in the medical field and Tony Figueras is a great surgeon. Fred Brennan is a heart surgeon at Mass. General and Brenda Hough is a Child Psychologist and has found her perfect personality hubby. Kim Black is a pediatrician in a newly built Children's Hospital and Sandy Fretz is working in a veterinary office. Beth Heinsohn is a Nobel Prize winning physicist for NASA. Tom Hughes is a relativistic subnuclear physicist who slays ores in his spare time. Deb Hobbs is a biochemist who T.P.'s the lab in **her** spare time.

Angela Eblan, Siobhan Fitzgerald, and Kendra Lukens are

successful nurses with lots of kids. Ginger Grospitch is a surgical nurse at Cleveland Clinic and Zanig Koshgarian is a nurse with world-wide recognition. Laura Mackie is a nurse with a foxy husband and Vicki Werning is a happily married nurse with 2 beautiful children. She has yet to lose her driver's license.

Some of us are lucky enough to be happily married. Jay Civilinski is extremely happy with his 13 children. Leo Macdonald is married with no kids. Jamie Brown, Nancy Morse, Celeste Chartrand and Judy Fruci are happily married. So are Tammy Horton and Carla Daley. Kari Christiansen, Leanne Purdon, Angie Pasquantonio, Patty Poirier, Kris Warnick, Darlene Silver and Winnie Wylie are all happily married with children. Dave Patenaude is helping others to come to an accurate knowledge of Jehovah God in this time of the end. Fred Meda and Jim Moore are happily married with good jobs. Laura Johnson is married to a wealthy Italian. Lauren MacKenney designs clothes when she's not with her husband. Kathy Kelly lives in a mansion in Newport, with her husband. Gary Gallagher is a millionaire with a beautiful wife. Terry Jones is married and owns a Porsche Dealership Company. Shannon Lynch had the right idea, she's married to Ray Bourque and owns the most beautiful white fur jacket.

Cord Walker is married and very wealthy. Pam Ross finally found someone to support her. Carol Schwalbe is married with enough money to buy her maroon 280Z. Wendi Slade is a happily married radio broadcaster and Monique Wolpers is a journalist with a family. Linda Robinson is married with 5 kids in Missouri. Unfortunately, her husband is in prison doing 10-15 yrs. Carrie Wylie is married to a rich man and she has her own Porsche.

Andi Miller, Jenny Smithers, Diana Jostin, and Sue Dolan are all swinging singles and love every minute of it. John Webster and Dave Wheeler are busy working hard. Chris Mikulis and Glenn Snow are older.

A few members of the Class of '83 are serving our country in the Armed Services. Eric Sandberg is in the Navy. Glenn Hall spends his days rescuing people while hanging from a helicopter in the USAF. Julie Davis is an officer in the USAF making \$50,000 a year. Jon Peck is in NASA and Pat Loughlin is still in Marine boot camp trudging through the swamps of Paris Island. Good Luck, Pat!

June Childs, Delight Newman, Danny Ward and Jeff Marsden have gone into air travel related careers. June's a stewardess, Delight is a flight attendant, and Jeff is piloting the space shuttle. Danny is sitting on the bridge of the U.S.S. Enterprise firing photon torpedos at Klingon warships.

Unfortunately, Patty Diamond, Heidi Stephanovitch, Karen Mullaney and Matt Tolatovicz were anialated in a nuclear war in Iran. Luckily, Scott Chitty made it out alive by dodging nuclear bombs on his motorcycle.

We really turned out some experts in the computer field. Mark Conley owns his own computer company. Ted LeBlanc and Rich Nugent are working with computers. Steve Waitkevich is a computer programmer for a large corporation. Wayne Newman is a computer science technician-he skips work alot. Mark Higgins is a systems analyst with a major computer company. And perhaps the

most unique member of our class, Tom DiPlacido, is a mud computer scientist that feasts on the wild ores slain by Tom Hughes.

Patty Cloutier, Cindy Eykel, Donna Shanks, and Alice Harrington are great executive secretaries. Karin Barstow and Lisa Vaphiades are working in large air conditioned businesses. Dawna Hooper and Julie Ellis are happily married word processors. Lynne Crandall is the best darn married interior decorator. Laura Feriolo is also an interior decorator. Tina Carey owns her own Day Care Center and Sue Cook works there part-time. Sharon Pierce is a career woman in social service and Marie Mahoney is a social worker in a half-way house.

Some of us entered the engineering field. Jeff Grant is head of a multimillion dollar engineering firm. Dan Melish, National Enduro Champion, is Jeff's chief engineer. Ed Johnson is an electrical engineer designing the Base 901 model VI's and Jeff Lewin is a successful engineer.

John Roberts and George Pappas own their own garage. Glenn Moore owns a garage, too, and only has to work 3 days a week. That's the life!

Many of us own our own businesses. Andrea Amidon, Donna Higgins, and Shannon Kearns own the newly established Plainville Drive-In. Jane Andrews and Michelle Mendes each own their own hairstyling businesses. Michelle does Robert Redford's hair in Hollywood. Tony Leonard and Becky Johnson own their own businesses. Jeff O'Donnell owns an elevator business and Renea Mullaney owns a fashion store in Paris. Mary Marcarelli owns an Italian Restaurant and Jill Hardy owns a nightclub and has a baby blue Trans-Am. Vin Marino owns a pornography shop in the center of Wrentham. Scott Kelly is the owner of an international corporation and is monopolizing the business world as a wealthy tyrant from his home in a South American jungle. Tim Slattery is President of Texas Instruments. Instruments.

Mike McCarthy is spending the rest of his life behind a desk. Mike Bergeron's the manager of a major company. Regina Strang is a rich criminal lawyer, and Andy Nichols is an accountant. John Kinlin is a highly spirited oceanographer. Sarah Fuller is a traveling photographer, and Bob Brown is pounding nails for \$8 an hour. Diane Cormier is finally employed. Curt Blood is announcing radio free Leichtenstein, and Helen Forand is a machine operator for Foxboro Company. Sue Kirby and Renee Powell are fantastic dancers. Chris Ferland is well-educated but not headed in any particular direction. Sandy Frizzell is a gym teacher and coached a professional softball team. Jim Houseworth is a physics teacher and owns his own recording studio. Sandy Allsworth is a successful business woman and Kevin Bergevine is a CPA with his own business.

By this time, Therese and I had a little too much to drink and were laughing a bit loud but we didn't care. After all, it was Therese's hotel. We remembered some of our childhood dreams and how many of them we never saw come true. Some of our classmates made their dreams come true.

John Masterson is a physical therapist who leads the Clydesdales for the Budweiser wagon in his spare time. Ray Rose is tracking grizzly bears in Alaska. Dave Ray is a proud member of Team Moosehead and roosting all over the Skull.

Scott Pfeffer drives beautiful women back to his country mansion to do some serious partying. Rich Callahan is selling crayola crayons to little girls and JoAnna LeBlanc is desperately trying to lose all unwanted pounds before our class reunion. Kathy Lincoln hunts tarantulas in the deep dark regions of Africa. Karen Miller lives near the sea in the tropics. Mark Elliott is presently in the winner's circle Carlsbad, USA. Jeff Murray is a beach bum in California, and never straight. Paul Schwalbe is a ski bum in the Swiss Alps with a bunch of snow bunnies living on a CX & Wahz. No Paul, I didn't make fun of you.

Mariette Laliberte attended Tenley Hughes' wedding and completed college. Heather Kohut is living in the Valley, "Fer Sure". Chris Jost is traveling around the world. Tracy Hartford is drinking strawberry daiquiris on her tropical island watching the sunset. Maureen Connors is sitting in her whirlpool in her underground home, while her 5 kids wake her up to tell her the phone is ringing. And Dave Gage is still a partying, hardworking college student who knows all the answers to any questions asked.

Many of us spend time in cars. John Schwartz is driving a fixed up painted Cutlass. Nancy Sciaba owns a creme colored Mercedes convertible and Robyn Johnson owns a fast car with mags. Karen Longobardi cruises around in her Z28, Cathy Hayes cruises in a Corvette with John, and Patty Phelan cruises in her 280ZX when she isn't training world-class gymnasts in her gym in California. Chuck Taber rides around in his DeLorean sports car and Wendy Wagner picks up gorgeous guys in her sports car. Mark Nevins, the ultimate highway menace, drives a Porsche 911 around in his mansion in Beverly Hills.

You remember Dave Hooper, don't you? Well, he still doesn't see himself seriously. Mary Carchio is living life to the fullest and Paul Mahoney is enjoying life. Lee Parker is healthy, happy, wealthy and wise. Meanwhile, Denise Petrosion is making something of her life.

Kevin Slattery has finally straightened up and Terry Roche is still chasing a green International. Paul Ruprecht is a very good person and Henry Schubert is fine and living well in the suburbs. Leo Desrochers made it and Mike Mendes is still having a good time but he's wondering where everyone went. Jim Hutchins is way, way, waaaaay away but living. And the one and only Dave Nichols is struggling to become **the** most famous person to ever graduate from King Philip.

And me? Well, I'm the team physical therapist for the Dallas Cowboy's football team. You wouldn't believe how much fun it is getting their bodies back into shape . . .

After our talk, Therese and I decided to call it a night. (The fact that we had too much to drink had nothing to do with us turning in early.) It was really great finding out how and where the AWESOME CLASS OF '83 was.

By the way, Mrs. Fagan, where **are you?** Have you come back to reality yet? When you find yourself, let me know.

Sincerely,  
Debby Finley

And the Class '83 lives on . . . . .

# AUTOMOTIVE

**T**he automotive program stresses the basic jobs, operations and skills needed in servicing and repairing automobiles and trucks.

The students will gain a thorough knowledge of the materials and equipment used by auto mechanics. They will learn to use meters and measuring instruments; learn to read and interpret sketches, schematics, and diagrams; and use shop manuals and other resource materials. Each student also will have an opportunity to use the hand tools of the automotive trade and learn how to perform the operations of the trade including the evaluations of completed work.

*Related careers: Auto mechanic, automotive engineer, service station attendant, ignition specialist, truck mechanic, fleet mechanic, shop foreman, automotive parts supplier.*

# CARPENTRY

**T**he carpentry shop course is programmed to give the student general and specific information concerning the field of carpentry and to develop the fundamental skills needed to be a good mechanic.

*In addition to the required instructional jobs, the students do jobs for schools, municipal departments, churches and charitable organizations.*

# CHILD CARE

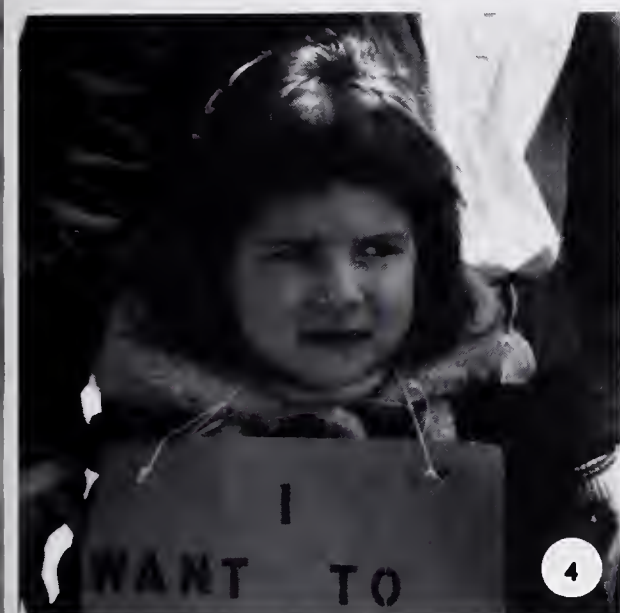

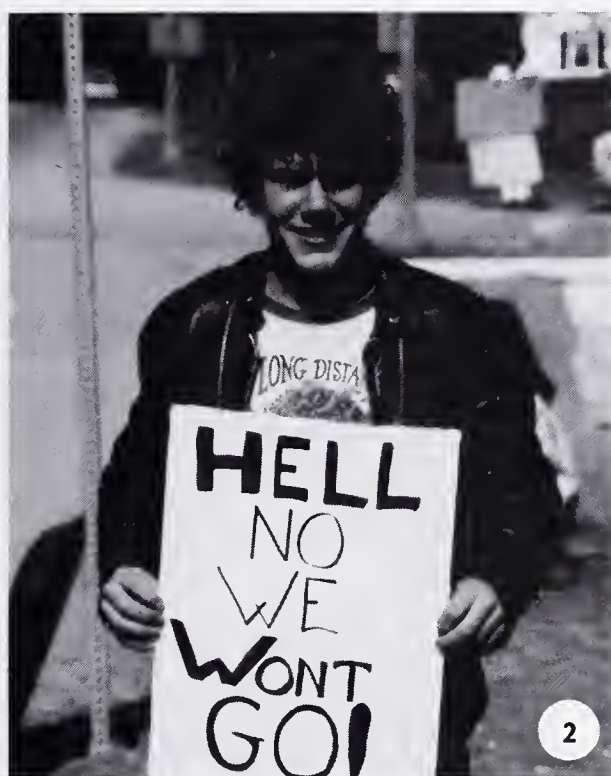

**C**hild care allows the students to work directly with children. The students study habits, attitudes and character. Through many activities the students are able to learn about children's behavior.

Last spring many K.P. students protested the cutting of Child Care and the Plumbing programs. Now thanks in part to their efforts Child Care is once again part of the vocational program.

*Related careers: Nursery school teacher, day care director, elementary school teacher, working with handicapped children, child psychologist working in a children's ward in a hospital.*

# DRAFTING

**T**he world has become technically oriented with all the new developments in industry, technology and space exploration. Drafting has become essential to put new ideas into working plans. Anyone associated with process of production will benefit from a study of drafting. The goal of the drafting course at King Philip is to develop an understanding of drafting in the technical world, so the students can enter the career fields related to drafting. Once the basics of drafting are understood, those with a continuing interest in drafting may select an area of specialization to gain additional experience.

*Related careers: Drafting trainee, Layout drafter, detail drafter, design drafter, checker, technical illustrator, computerized drafting (cad-cam), architect, industrial designer, engineers.*

# ELECTRICAL

**T**he electrical program at King Philip is diversified to accommodate a wide range of abilities and to challenge each student to the limit of his/her ability. Hands on practical training is obtained through the students holding the responsibility of wiring the house built by the carpentry students. Additional practical training is gained through the completion of the necessary installations and repairs that must be made to the school building. This training makes each student fit for profitable employment upon graduation.

# MACHINE

**S**tudents in the machine shop are engaged in many maintenance jobs throughout the school. The special skills of the machinist enable them to repair or duplicate tools and machine parts for the several other shops.

In addition, the machine shop students fabricate precision tools for their own use when they enter the trade. The projects range from a simple hammer to rather sophisticated, precision grinding vise. These projects provide the students with a valuable hands-on experience as well as allowing the student to acquire some expensive tools before he actually goes out to work.

The co-op program was successful for machine shop students last year and the shop anticipates another good year. In spite of the depressed job market most of last year's graduates are now working in the trade and some of this year's seniors already have jobs lined up.

# TECH. DRAW

**I**n our community we buy, rather than build, most of the things which we need to live. Most of these products are made in factories. Each year new discoveries and inventions help to make life a bit easier. There are machines for doing ordinary things like simple arithmetic and machines for doing extraordinary things like space exploration.

For each of these manufactured products a technical drawing was prepared in order to graphically communicate the required information from the designer to the builder of the product. A knowledge of technical drawing helps students in choosing a career and gives him an appreciation of the design process.

# SHEET METAL

**T**he sheet metal trade is the oldest trade in the world. When man made his first weapons they were made from metal. At the King Philip Regional Vocational High School the students have the most modern metal shop and welding facilities available. Students are currently learning the skills of heating, air-conditioning, and are now breaking into the science of solar heat. The metal shop students, in addition to their curriculum, are making 16th Century lanterns, using the methods and techniques of the early colonial craftsman. In addition to our metal shop, the students have built a new welding area with ultra-modern equipment and a complete exhaust system. The welding area is an integral part of our trade.

*Related careers: Heating, ventilating and air-conditioning, kitchen equipment, solar systems, welding furniture, plant maintenance, dust collection systems, nuclear systems, cornice work, architectural sheet metal, ornamental iron work.*

# DISTRIBUTIVE ED.

**O**ur Distributive Education program provides students with training in marketing, retailing, and management. Junior D.E. students manage and operate the King Philip school store, a small retail establishment which serves the high school faculty, administration, students and community. In addition, students work in the K.P. TP restaurant, which provides specialized training in restaurant marketing. This two year program is designed to better prepare our students for a position in the business world.

The senior D.E. students participate in the cooperative education program. These students work at a local business which serves as their job training station. Students also participate in DECA, the Distributive Education Clubs of America, a national youth organization designed to promote excellence in marketing, management and retailing.

# *P*LUMBING

**O**ur program goal is to have each student absorb as much as possible in as many different phases of plumbing as possible.

The principle duties of plumbing workers are laying pipe to connect plumbing systems in buildings to the city's water and gas supply and its drainage system; installing pipe systems for water, gas and sewage in buildings under construction; installing fixtures such as bath tubs, sinks and automatic washers; and altering, repairing and replacing plumbing equipment and gas systems.

We have a framed house in the plumbing shop in which we practice minor repairs around the school itself.

The Student Council is a group of elected representatives from all classes in the vocational as well as the academic school. It is also their responsibility to co-ordinate Homecoming. This is usually a week long event. This year they had Hat Day, Badge Day, an exceedingly popular Punk Day, and finally Green and Gold Day. The Council also hosted the Homecoming Dance. The Senior Class was presented the Spirit Week Trophy for showing the most spirit all week. A highlight of the week is the crowning of Homecoming Queen and her court. Theresa Doyle was chosen queen and Denise Petrosian, Vicki Werning and Delight Newman were princesses. (left) On Saturday, there is a parade featuring the floats built by each class during the week. The Sophomore Class was victorious in the float competition. Homecoming culminates with the football game in the afternoon.

The Class Prophecy written by Debbi Finley was also read.*

# Memoriam

*In Memory of Erna DeKryger  
Dec. 4, 1963 - Oct. 20, 1982*

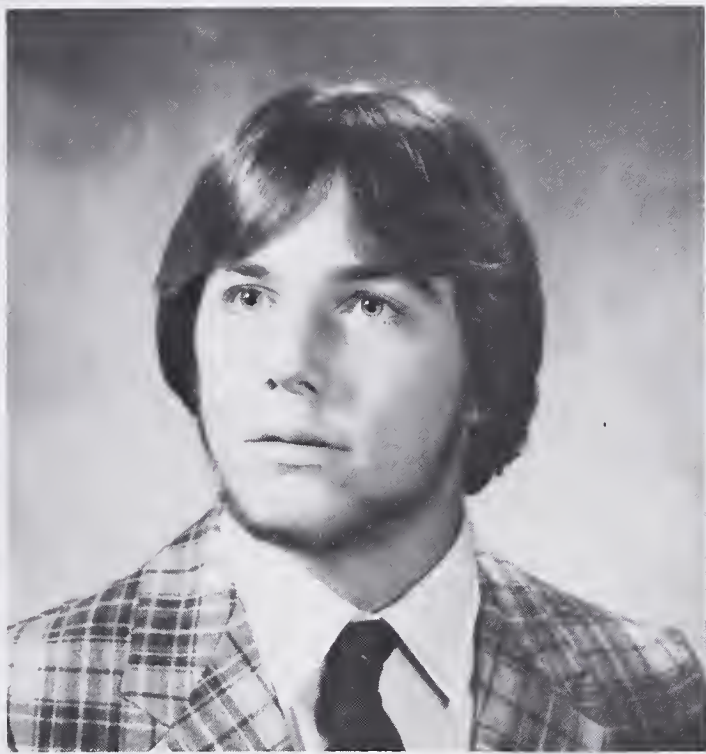

*A tear on your photo  
The trace of it will always stay  
How will they blend in tomorrow and today  
your smile,  
and my tear  
Many a mile, but no fear of any drifting  
Your photo is forever uplifting.  
Lend my knowledge of your love.*

#### DEATH

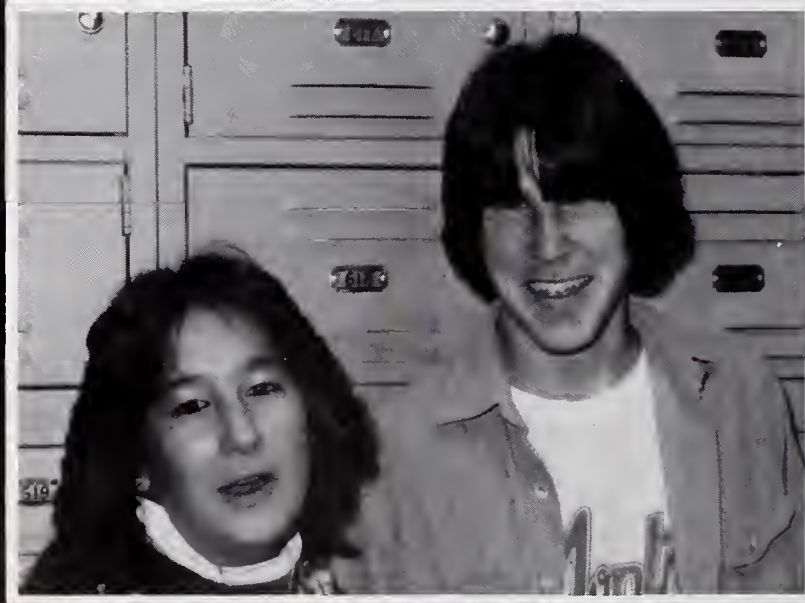

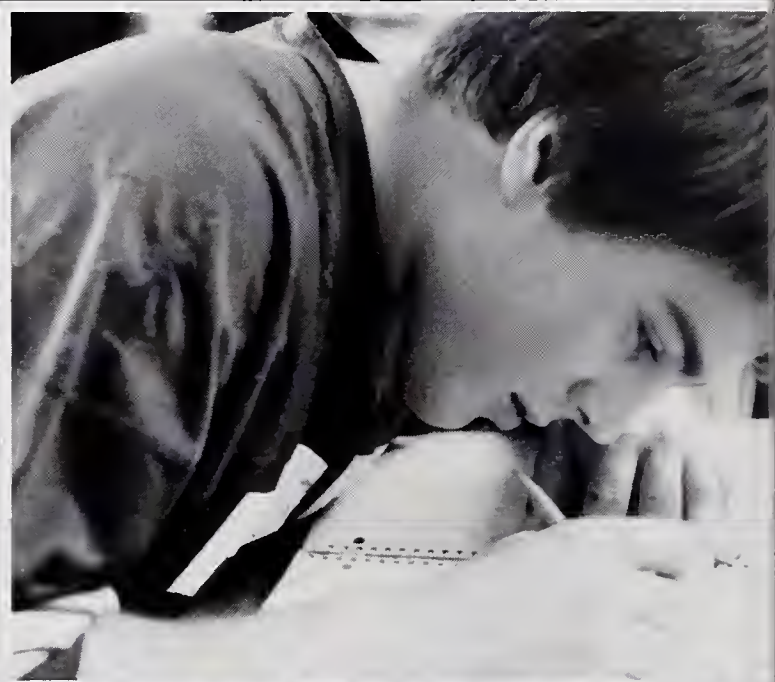

Death is many things,  
It all depends when it happens,  
and who the lost one is.  
Death is sad when it is an elder relative.  
Here you hurt and think about things,  
But most of your sorrow is felt for those closer than you.  
But again you hurt for your friend and not yourself,  
You are just there to help them thru it all.  
But never!  
Never have I felt death this way before!  
This time **it** confronted me in an awakening phone call.  
This time **it** caught me totally off guard.  
I now learned the closest friend to me was gone.  
**FOREVER!**  
**It** got him!  
I questioned in disbelief, but then had to accept it,  
For reality hits us all at some point.  
I then called some close friends of my already long missed friend,  
Letting them know was something I had to do.  
Next was a long day of why's and mental anguish,  
Which is still going on now.  
I've had thoughts of the good times, and the bad,  
And the future plans we were going to share.  
We saw the Brides at Rocky Point,  
And both looked back at this in the '82 Chieftain.  
He watched me and me him when one of us had too much to drink,  
And when we both had too much to drink we somehow made it home together?  
We dove from high heights in Milford,  
We baked in the sun at Martha's Vineyard,  
And then again in Arizona.  
But never!  
Never did I expect these good times to end.  
Death had dealt me loss I still can't believe,  
For my good buddy Jeff is gone and not to return . . .  
Lord help me thru this!

*We're finished! It was a lot of hard work but to me it was all worth it. The combined efforts of the chieftain section editors and staff and the careful guidance of Mr. Sumner and Mrs. Fagan made this yearbook one of a kind. Although this is our yearbook advisors' last year, they did not let that hinder their dedication to the yearbook.*

*The talent of the photographers and the lay-out artists was overwhelming. The staff dedicated many hours after school and into the night working on the yearbook and eating pizza. I took great pride in working with the advisors, the Josten representative, the section editors, the staff, and my co-editor. The 1983 King Philip Chieftain is a great success. I hope this book reminds you of many fond memories.*

*Sincerely,  
Kim Black  
co-editor*

*Kim Black*

*When we on the Chieftain staff put together the 1983 yearbook, we had one goal in mind; to compose a book of the fun and friend-filled times of this year. I feel that we have accomplished this and much more.*

*I know that when I look through this book, time and time again, I will recall the fantastic memories of my last year at King Philip. These memories include, not only the school events recorded in the Chieftain, but the "after hour" ones, also. Events we will never forget, such as "gatherings" at the "S." cabins, Sherwood Park, Horseneck Beach, or anywhere else we could make fun happen.*

*My only wish is that all who look upon these pages will find their own memories, fond memories which will remain with them forever.*

*My thanks go to the Chieftain staff for their devoted assistance, and a special thanks is given to Mrs. Fagan and Mr. Sumner for their patience and painstaking guidance in the creation of this, the finest Chieftain yet.*

*In closing, I would like to wish the entire class of '83 great joy and success in everything they do.*

*Sincerely,  
Heather Kohut  
co-editor*

# Dedication

*We, the class of 1983, proudly dedicate the twenty-sixth edition yearbook to Mrs. Janice Fagan.*

*Other than teaching the fundamentals of geometry to the students of King Philip, Mrs. Fagan has advised the graduating class since our freshman year. She has aided us in organizing semi-formals, proms, fund raisers, homecoming floats, dances, senior suppers, a senior breakfast, and graduation. We certainly couldn't have done it without her.*

*Mrs. Fagan has been head advisor to the King Philip Chieftain staff for six years. She has dedicated much of her time working on the yearbook. Last summer she escorted six students for a weekend at Bryant College for a yearbook workshop. Unfortunately for King Philip this is her last year as yearbook advisor.*

*Mrs. Fagan's professional side includes being very spirited. She often wears her green and gold Indian headdress on special occasions. She socializes with many of the students, each of whom thinks of her as a close friend.*
